## HAIR RECOVERY TREATMENT (reconstruction mask)

### ACTION

Highly specific mask for hair reconstruction. High concentration of active ingredients such as hyaluronic acid and keratin plays an action by plumping, filling, nourishing, toning, restructuring and antioxidant. Also it disentangles, polishes and softens hair at once.

### HOW TO USE

After washing hair with Hair Recovery Shampoo dab excess water and apply mask leaving to take effect for 5-10 minutes, comb then rinse thoroughly. For best results it is recommended to complete treatment with Hair Recovery Serum.
