## COLORA DEVELOPER WITH ALOE VERA 10V(3%) - 20V(6%) - 30V(9%) - 40V(12%)

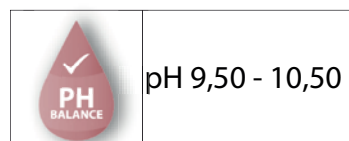

STABILIZED OXIDANT CREAM WITH ALOE VERA 10V(3%) - 20V(6%) - 30V(9%) - 40V(12%)

Stabilized oxidant cream COLORA DEVELOPER consists of a stabilized Hydrogen Peroxide enriched with Aloe Vera, which prevents the release of oxygen from its molecule, thus maintaining the correct volume concentration and prolonging the stability of the product.

The high quality of the active ingredients produces an intense softening, decongestant and soothing effect, that leaves hair soft and manageable.

### HOW TO USE

10V (3%)	TO DARKEN
10V (3%) o 20V (6%)	TO KEEP THE SAME LEVEL
