## NEUTRALIZING CREAM GEL STRAIGHTENING SYSTEM WITH ORGANIC PROPERTIES

### NEUTRALIZING CREAM GEL STRAIGHTENING SYSTEM WITH ORGANIC PROPERTIES

- FOR NATURAL/TREATED/SENSITIVE HAIR

- FOR THICK HAIR/AFRO/ETHNIC HAIR

It is a Neutralizing lotion formulated on a treating creamy base. Easy to apply, it fixes the smoothing effect of the Straightening Gel, sealing the hair cuticles, conditioning and leaving it soft and bright, thanks to the content of Marine Collagen Amino Acids (low molecular weight). Suitable for all hair types (natural, treated, sensitive, afro, thick, ethnic).

**HOW TO USE:** Once the processing time of the Straightening Gel is reached, rinse with plenty of warm water. Then dab the excess water with a towel and proceed to saturate. Apply the neutralizing cream evenly, using a brush and a comb. Keep combing continuously in every direction, keeping the hair always in tension to make it as smooth as possible. The hair will be fixed in the desired shape when it comes into contact with the Neutralizing Cream.

**LEAVE IN TIME:** Leave on for a minimum of 5 minutes up to a maximum equivalent to the same processing time used for the Straightening Gel, always continuing to comb. Rinse the hair thoroughly, then condition with the most suitable mask from Cura biOTHERAPY line.

INGREDIENTS: aqua (water), hydrogen peroxide, cetearyl alcohol, lauryl alcohol, citric acid, ceteareth-20, ceteareth-30, cetrimonium chloride, cocamidopropyl betaine, collagen amino acids, disodium pyrophosphate, hydroxypropyltrimonium hydrolyzed corn starch, leuconostoc/radish root ferment filtrate, oxyquinoline sulfate, peg/ppg-14/4 dimethicone, peg-6 caprylic/capric glycerides, phosphoric acid, sodium chloride, tetrasodium edta

### PACKAGING

FR005 Tube  
Capacity 250 ml

### ACTIVE INGREDIENTS

#### AMINO ACIDS MARINE COLLAGEN

They have powerful moisturizing properties, working from the inside out and are a great treatment for damaged hair, preventing the formation of split ends.
