

## CHRØMIS DEVELOPER Stabilized Cream Developer with Coconut Oil and Shea Butter.

### ACTIONS:

Stabilized Cream Developer available in:

- 3.5 V°(1.05%)
- 5 V°(1.5%)

It is formulated with stabilized hydrogen peroxide, which prevents the release of oxygen from its molecule, ensuring the maintenance of the volumetric concentration.

### BENEFITS:

The emulsion is not just a simple activator, but also a conditioning carrier.

Enriched with :

- Coconut Oil (Penetrating): It acts deep within the hair shaft to prevent protein loss and maintain the hair's body and strength.
- Shea Butter (Emollient): Instantly hydrates the driest areas and sensitized ends.

### HOW TO USE

3.5 V (1.05%)	ALL THE SHADES
5 V (1.5%)	ALL THE SHADES/BOOSTER

pH 2,5 - 3,5
