

CURA RIATTIVA

REACTIVATING TREATMENT FOR HAIR LOSS WITH ESSENTIAL OILS - 2

This specially formulated treatment is a rich combination of essential oils that promotes follicular vascularity and oxygenation. It relaxes the scalp by stimulating the cellular metabolism of the follicle, reactivating the growth phase of hair. It is recommended in cases of hair loss, diffused thinning and thinning hair.

ACTIVE INGREDIENTS

Eucalyptus essential oil, Bergamot essential oil, Rosemary essential oil, Mont Blanc Lavender essential oil, Sage (officinalis) essential oil, Tea Tree oil.

HOW TO USE

After washing hair with Hair Loss Detox Shampoo, shake the contents of the bottle, open it and insert the applicator. Evenly distribute the content to affected areas of the scalp. Gently massage to facilitate absorption.
